

# F-BOX

## Fanless BOX PC

Compact | Durable | Flexible | Performance

With the smallest distributed footprint in the POS PC series, the Fanless BOX delivers a tremendous amount of power in a compact design for an extremely affordable price. This cost effective PC Fanless BOX system can be configured as a thick-client, stand alone solution or a thin-client, centrally controlled workstation.

- Fanless design: small compact size and absolutely silent.
- Compact small / space saving design.
- Multiple COM ports and cash drawer control ports built-in to support almost all peripherals, and to provide options to meet different size demands.
- F-BOX is available with single and dual VGA ports : additional VGA to support multiple LCD Display.
- 100% made of aluminum to provide the highest performance, quality and reliability.
