

# POWERFUL CARD PRINTERS FOR YOUR APPLICATION

When you want to enhance security, loyalty, profitability or member satisfaction, the choice is clear — Datacard® card printers.

Datacard® card printers deliver the essential technologies and dependable performance you need to issue personalized cards. This broad and trusted selection of easy-to-use printers can satisfy your requirements for security, quality and value. They also integrate seamlessly with our identification software and capture offerings, enabling you to create a complete and cost-effective solution.

## SP25 Plus Card Printer

### AFFORDABLE AND FLEXIBLE

The SP25 Plus card printer offers a unique combination of full-color and rewritable card printing capabilities.

- Designed for low-volume, manual-feed applications
- Inexpensive to own and operate
- Ideal for retail/loyalty, membership and smaller organizations

## SP35 Plus Card Printer

### EASY AND CONVENIENT

Exceptionally easy-to-use, the SP35 Plus card printer delivers everything you need to print vivid, one-sided color cards.

- Compact, plug-and-play design
- Simple to master — in minutes
- Built for visitor IDs, health clubs and membership organizations

## SP55 Plus Card Printer

### FAST AND VERSATILE

With the fastest speeds in the line, the SP55 Plus card printer maximizes productivity for printing on one or two sides of the card.

- LCD and Ethernet connectivity
- High-capacity input/output hopper
- Perfect for casino/loyalty, education and corporate IDs

## SP75 Plus Card Printer

### SECURE AND DURABLE

The SP75 Plus card printer produces highly secure IDs and can be configured with one or two lamination stations.

- Applies different laminates to the front and back of the card
- Theft deterrent software and hardware lock suite
- Designed for secure corporate, university and government IDs

## RP90 Plus E Card Printer and RL90 Card Laminator

### ADVANCED IMAGING

The RP90 Plus E card printer employs retransfer technology to print on longer lasting non-PVC cards that offer higher durability.

- Issues contact and contactless smart cards, proximity and dual-interface cards
- Optional one-sided lamination station applies Datacard® DuraGard® laminates
